Miss Deborah Adair

Local girl is star

Deborah Adair (Miller), a native-born Virginian, has joined the cast of the popular daytime drama, "The Young and the Restless". She is playing the role of Jill Foster as part of a three year contract recently signed with the CBS Television Network. The drama is broadcast Monday through Friday (1:00-2:00 P.M.) on CBS stations.

Miss Adair's grandparents are Mr. and Mrs. E. P. Taylor who live in Appomattox County near Gladstone. Her mother, Mrs. G. Russell Miller, the former Anne Elizabeth Taylor, now of Bellevue, Washington graduated in 1947 from Appomattox High School.

Prior to going to Hollywood where the program is videotaped at CBS's Television City studios, Miss Adair, a graduate of the University of Washington, performed in more than a dozen theater productions in the Seattle area. She received critical acclaim for her performance in "Gigi", playing the lead role. She also starred in "Barefoot in the Park", "Arsenic and Old Lace" and "The Moon is Blue" among others. She also held the position of assistant promotion manager of station KIRO-TV in Seattle.

On television, Miss Adair has appeared in episodes of the series "Paris" and "Tenspeed and Brown Shoe". Currently she can be seen in national TV commercials for Southern Bell and Burger Chef.

Miss Adair reports that she is now working on two books. One is a series of vignettes on the growing pains of adolescence, based on her own and other women's experiences. The other is a collection of "show-off, no-work" recipes from Virginia and elsewhere in the South.

In October, Miss Adair plans to visit relatives and friends in Appomattox while on an East Coast promotion tour.

Hearing Loss Is Not A Sign Of Old Age

Chicago, Ill. — A free offer of special interest to those who have trouble hearing has been announced by Beltone. A non-operating model of the smallest Beltone aid of its kind will be given absolutely free to anyone requesting it.

Send for this model, put it on and wear it in the privacy of your own home. While many people with a hearing loss will not receive any significant benefit from any hearing aid, this free model will show you how tiny hearing help can be. It is not a real hearing aid, and it's yours to keep, free. The actual aid weighs less than a third of an ounce, and it's all at ear level, in one unit.

These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 00000, Beltone Electronics Corp., 4201 W. Victoria, Chicago, Illinois 60646.
